

Sixth National Conference on Inclusive Education

15-17 December 2018

at Gotri Medical College (GMERS), Gotri Road, Gotri, Vadodara, Gujarat
nciegujarat@gmail.com

The Centre for Disability Studies and Action, School of Social Work of Tata Institute of Social Sciences, Mumbai and Brotherhood, Delhi in collaboration with **Praangan**, a Centre for Children with Special Educational Needs a Baroda-based organization are organising **sixth National Conference on Inclusive Education** from 15 to 17 December 2018 at Gotri Medical college, Vadodra, Gujarat.

Four national conferences (one each at TISS Mumbai, Goa, Delhi and Patiala) and one international conference (TISS Mumbai) have already been organised in a span of 18 months. Approximately 125 papers were presented by the practitioners during these conferences. **Thus, this conference is not an event, but it is a process and a platform for learning and sharing.**

We aim to reach all professionals from different parts of country and bring all to a common platform and share the work with each other by publishing the papers (with ISBN) presented by participants. (Four books have already been published).

The conferences organized across India guided us to develop a course for in-service and pre-service teachers, parents and non-teaching staff based on learning outcomes of the conferences. The course will be recognised from competent authority.

INCLUSIVE EDUCATION- LEARNING TOGETHER

Inclusive education is about how we develop and design our schools, classrooms, programs and activities so that all students learn and participate together. For a school to be inclusive, all children, regardless of their ability level have to be included in a mainstream classroom, so that students of all ability levels are taught as equals, and that teachers adjust their curriculum and

teaching methodologies for all students to benefit. Implementation of an inclusive education would require a number of changes in present day teaching practices, curriculum content, infrastructure, technological aids, evaluation procedures and available resources at the school level.

The overall aims of such conference is to get an opportunity to share and disseminate ideas, research findings, academic, field-level experiences, evidence based practices and innovation in inclusive education from different parts of India and create a sharing community to feel all children safe and secure in the classroom.

CALL FOR PAPERS

The practitioners are invited to present papers based on

- researches,
- evidence based practices,
- innovations, and
- Practices based on information and communication technologies & Assistive technologies

Developing Resource Persons

Practitioners who will present papers in the conferences will also be invited as resource persons for the proposed course as and when required online or in-person.

The technical committee will select the papers. The selected papers should be presented by the practitioners. These selected papers will be published in the forthcoming book with ISBN.

WHO CAN PARTICIPATE?

The schools' team comprising regular teacher, special teachers, Principals and other professionals educating children with and without disabilities in inclusive settings and Teacher educators from DIETs, Colleges of Education and Departments of Education of various Universities who can highlight the training aspects and researches undertaken in inclusive education process can participate.
